LIQUIDATION PROCEDURES

- In accordance with the Margins section of the Futures Customer Agreement and Disclosures document, StoneX reserves the right to liquidate any commodity positions in your account at its SOLE AND ABSOLUTE DISCRETION without prior notice. Clients are responsible for monitoring their positions and are financially responsible for any losses generated by open positions.
- Without limiting the foregoing, StoneX generally liquidates open positions if the client's Equity-to-Margin ratio (as defined below) drops below 5%, or the account Net Liquidating Value (NLV) drops below \$500.00 (whichever comes first). For accounts with only micro e-mini futures positions, a liquidation may occur when the Net Liquidating Value (NLV) drops below \$75.00. In such instances, your account may be locked, open positions may be liquidated, and if our risk management staff liquidates your position due to inaction on your part, a liquidation fee will apply. StoneX's current liquidation fee is \$50.00 per contract.
- Your "Equity-to-Margin ratio" is calculated by dividing your NLV by Initial Margin (IM).
- Day-Trade margin parameters will be brought to full exchange Initial Margin requirements at 3:30 pm CT. For any customer that entered a position using day-trade margins and has not offset their position prior to 3:45 pm CT, the positions MAY be liquidated.
- See Futures Customer Agreement Section 18 - Liquidation of Accounts.

¹ Non-US securities may be subject to additional charges. Fees available on request.

² Only select no load funds are available. A list of funds is available upon request.

³ Commission rates depicted in the table above are quoted on a per-contract, per-side basis. The table above does not include customary NFA and exchange fees. Additional fees may apply at some foreign exchanges. Liquidations due to insufficient margins \$50/contract. Voice execution fee is \$250/contract and does not include customary NFA and exchange fees.

⁴ Per trade confirmation or statement delivered. Clearing firm reserves the right to adjust the surcharge based upon changes in postal, paper, vendor or other cost factors. The paper delivery surcharge for confirmations is assessed on a per trade basis and billed as incurred.

⁵ StoneX Base Rate is the Call Money Rate (as published by the Wall Street Journal and Bankrate.com) plus 2.50% per annum.
